From Farm to Cup: The Journey of Coffee

Informative Speech · Chronological · Anecdote + Fact & Statistic

INTRODUCTION

Where does your morning coffee come from?

- Every bean travels thousands of kilometers
- Three steps: the farm, the roaster, your cup

1 BODY 1 · THE FARM

It begins as a red cherry on a farm near the equator

- Ethiopia, Brazil, Vietnam
- Two green seeds inside each cherry
- Picked by hand, dried in the sun for about two weeks

1

2 BODY 2 · THE ROASTER

Roasting at 200 °C gives coffee its smell and color

- Green beans shipped across the ocean
- Beans turn brown and crack like popcorn
- About 2 billion cups a day worldwide

2

Source: British Coffee Association

3 BODY 3 · YOUR CUP

In less than a minute, months of work become one cup

- Beans arrive at a café or your kitchen
- Ground, brewed, and poured
- Months of work in one minute

3

Farm → Roaster → Cup

A journey of months and thousands of hands.
So the next time you take a sip, remember how far it has come.
